

EMBO | Japan Virtual Lectures

Molecular machineries underlying intracellular lipid distribution and organelle degradation

June 22, 2021 | 16:00 – 17:30 JST

16:00-16:10: Welcome

Prof. Nobuhito Saito, Executive Vice President, The University of Tokyo, Japan Prof. Maria Leptin, Director, EMBO, Germany

16:10–16:40: Auxin-inducible protein degradation unravels lipid trafficking routes

Prof. Elina Ikonen, Professor, Department of Anatomy, Stem Cells and Metabolism Research Program, University of Helsinki, Finland

16:40-16:50: Q&A session

Moderated by Dr. Yusuke Hirabayashi, Associate Professor, Department of Chemistry and Biotechnology, The University of Tokyo, Japan

16:50–17:20: Organelle degradation by autophagy-dependent and independent pathways

Prof. Noboru Mizushima, Professor, Department of Biochemistry and Molecular Biology, Graduate School and Faculty of Medicine, The University of Tokyo, Japan

17:20-17:30: Q&A session

Moderated by Dr. Yusuke Hirabayashi

Open to the life sciences community in Europe and Japan
