

IUBMB SEOUL 2018 Young Scientist Program (YSP)

YSP 2018 will bring together approximately 100 talented PhD students, postdocs and assistant professors early in their careers from across the world who are involved in the field of biochemistry and molecular biology. YSP 2018 offers the opportunity to young scientists to share and exchange scientific experience, present their work to an international audience, meet internationally renowned professors, and thereby to promote their scientific future and career.
