

14-18 November 2021

Protein Signaling

– from mechanism to cellular function

Topics

- Protein design, structure and function
- Protein signaling and genome maintenance
- Single cell and single molecule biology
- Proteomics
- Nuclear architecture and chromatin organization
- Disease systems biology

Speakers

Agata Smogorzewska
Alessandro Costa
Angus Lamond
Anne-Claude Gingras
David Gilbert
David Komander
Dorothee Kern
Emma Lundberg
Jan-Michael Peters

Johannes Walter
Karolin Luger
Lennart Martens
Lori Passmore
Madan Babu
Matthias Selbach
Peijun Zhang
Raul Rabadan
Taekjip Ha
Wendy Bickmore

Scientific organising committee

Anja Groth
Emma Lundberg
Guillermo Montoya

Jesper V. Olsen
Julien Duxin
Simon Rasmussen
