

2018The Osamu Hayaishi Memorial Scholarship for Study Abroad

Grant amount JPY5,000,000 Total amount JPY40,000,000

name of adopter (age)	affiliated institution	research theme
Mashito Sakai (39)	Department of Cellular & Molecular Medicine, University of California, san Diego	Unraveling quorum sensing of tissue macrophages
Taki Nishimura (37)	University College London,MRC Laboratory for Molecular Cell Biology	PI3P metabolism regulation by membrane lipid environment
Naoki Nakagawa (31)	University of North Carolina	Mosaic organization of neural progenitors essential for the neocortical development
Takuma Misawa (31)	University of Texas Southwestern Medical Center	A genome-wide screen for regulators of allergic responses
Shizu Aikawa (28)	Cincinnati Children's Hospital Medical Center	Spatiotemporal analysis and function of the cyclooxygenase-prostaglandin pathways in periimplantation uterus
Yohsuke Ohba (30)	University of Cologne, CECAD Research Center	Role of PRELID family members for intramitochondrial phospholipid trafficking
Kyoko Chiba (28)	University of California, Davis	Single Molecule Studies of Microtubule Motor Protein Regulation
Yoshinori Tanaka (33)	Cambridge Institute for Medical Research, University of Cambridge	The temporal and spatial regulations of autophagy mediated by PI(5)P

Age and affiliated institution are as of 25th Jul, 2017
