

2020The Osamu Hayaishi Memorial Scholarship for Study Abroad

Grant amount JPY5,000,000 Total amount JPY40,000,000

name of adopter (age)	affiliated institution	research theme
Masatoshi Inoue (34)	Bioengineering, Stanford University School of Medicine	
Takeshi Katsuda (35)	Department of Medicine, Gastroenterology Division, University of Pennsylvania	Elucidation of the epigenetic mechanism underlying the biliary reprogramming
Hotaka Kobayashi (32)	Albert Einstein College of Medicine	Dissecting microRNA foci by real-time single mRNA translation Imaging
Hana Kimura (28)	Microbiology and Immunology University of California, San Francisco	Mechanisms of Endoplasmic Reticulum membrane acquisition by a bacterial pathogen
Katsuhiro Sawasato (27)	United Graduate School of Agricultural Sciences, Iwate University	The role of minor lipids on membrane integration of polytopic membrane proteins
Keisuke Takeda (28)	School of Life Sciences, Tokyo University of Pharmacy and Life Sciences	The use of Opa1 antagomir to counteract mitochondrial disorders
Kosuke Watari (38)	The Graduate School of Pharmaceutical Sciences, Kyushu University	Mechanism of tumor progression by bi-regulation between tumor angiogenesis and immunity through inflammatory response in tumor microenvironment
Shinichi Inoue (35)	Tohoku University School of medicine	Control of circadian rhythms and energy homeostasis:the roles of clock genes

Age and affiliated institution are as of 25th Jul, 2019
