

Ethical, Legal, and Social Issues of Human Brain Organoid Research and Application

What if
human brain
organoids acquire
"consciousness"?

If human brain organoids
were transplanted into
animal brains,
and acquired
higher cognitive abilities?

What do you think?

---Speakers---

Alexandre Erler
National Yang Ming Chiao Tung University

Yoshiyuki Hayashi
Saitama Medical University

Tadashi Isa
Kyoto University

Masanori Kataoka
Hiroshima University

Tetsuhiro Kikuchi
Kyoto University

Tsung-Ling Lee
Taipei Medical University

Takuya Niikawa
Kobe University

Hideya Sakaguchi
RIKEN BDR

Julian Savulescu
National University of Singapore

Tsutomu Sawai
Hiroshima University /
Kyoto University

Tetsushi Tanibe
Saitama Prefectural University

Elizabeth Thomas
University of North Carolina, Chapel Hill

Momoko Watanabe
University of California, Irvine

---Organizers---

Tsutomu Sawai
Hiroshima University /
Kyoto University

Tadashi Isa
Kyoto University

Date: Friday, 2 December, 2022

Venue: Kyoto University, Shirankaikan, Inamori Hall
