2023 MAY NEWS

IUBMB TRAINEE INITIATIVE

UNLOCKING INTERDISCIPLINARY RESEARCH

- Exploring Benefits and Challenges -

Concrete tips for your journey and talks about the most exciting in Neuroimmunology

14th of June
 17:00-19:00 CEST
 (11:00-13:00 EST)

Via Zoom

Highlights

- Discussion rounds about Opportunities and Difficulties for young researchers
- Exciting short talks about the power of interdisciplinary research in Neuroimmunology
- Your chance to be published in a journal!

Let's Talk SCIENCE

Submit your 2-4 minute Video about what excites you most about interdisciplinary research or how your work has implications in two fields. Win a **publication in the FEBS Journal** or the **registration to an international research conference!**

Open to all for participation

- 15th May Application open for submission of the video
- 5th June Deadline for submission of the video
- 14th June Announcement of winner

Send your video to:
 InterdisciplinaryResearch@gmail.com
 Subject: Video Participation

Don't worry, your chance to win

Connecting experts from diverse fields, combining their expertise, perspectives, and methodologies to address multifaceted challenges sounds interesting? That is what we will share in our event about interdisciplinary research! Join to see the most exciting from Neuroimmunology. Apart from insights, we share the benefits and challenges that come along with transcending traditional disciplinary boundaries.

ANNOUNCEMENTS

[IUBMB Travel Fellowships](#) is to support travel to meetings for trainees in biochemistry and molecular biology. Travel to high-quality courses for advanced training may also be considered

[IUBMB Relocation Support for Displaced Trainees](#) (currently with special emphasis to Ukrainian trainees) provides funds to relocate trainees to new labs because of natural disasters, war, or other events beyond their control that interrupt their training.

FACULTY POSITION CALL SYNTHETIC AND SYSTEMS BIOLOGY

The Institute for Biological and Medical Engineering (IIBM) of the Schools of Engineering, Medicine and Biological Sciences and the Department of Chemical and Bioprocess Engineering (DIQB) of the School of Engineering of the Pontificia Universidad Católica de Chile invite applications for a tenure-track full-time faculty position in synthetic and systems biology. The objective of this call is to enhance the area of synthetic and systems biology in

biotechnology, systems biology, synthetic biology, or similar areas. Postdoctoral experience is highly desirable. You can find more information [here](#). **Application Deadline: May 20th**
