

Dear colleagues,

This is to inform you that the “2024 call for the IRB-TARGET Programme” is now open.

Co-funded by the European Union's Horizon Europe Marie Skłodowska-Curie Actions Work Programme, IRB-TARGET is offering 5 four-year fellowships for the academic year 2024-2025 for researchers interested in carrying out their PhD projects.

IRB-TARGET aimed at talented young scientists from the national and international community who wish to undertake a doctoral degree in biomedicine. We encourage applications from highly motivated graduates with outstanding qualifications in biology, chemistry, biochemistry, physics, pharmacology, computational biology, or related fields. Successful candidates will join research groups headed by top-level scientists and will carry out their research in cutting-edge fields of biomedicine in a stimulating environment.

The deadline for applications is 15:00 CET on 15 December 2023.

For further information, please visit our [website](#) or alternatively contact us at [phd@irbbarcelona.org](mailto:phd@irbbarcelona.org)

Please spread the word among your contacts and colleagues.

**Leyre Caracuel**
