

Join us at Biomolecular Horizons 2024 to be held in Melbourne, Australia from 22-26 September 2024. This important forum will bring together three prestigious congresses, each with a strong history of attracting the Bioscience and Biotechnology communities to discuss and examine the latest developments and research:

- 26th Congress of the International Union of Biochemistry and Molecular Biology (IUBMB)
- 17th Congress of the Federation of Asian & Oceanian Biochemists & Molecular Biologists (FAOBMB)
- 22nd ComBio Conference (ComBio)

This will be the first time the IUBMB Congress will be held in Melbourne and only the third time in the Southern Hemisphere. It will join with FAOBMB and ComBio to create a truly global forum bringing together renowned scientists from across the world, from Nobel Laureates to early career scientists.

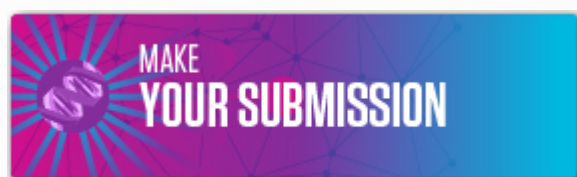

An outstanding array of international presenters will be leading the program. [Visit the website.](#)

CALL FOR ABSTRACTS

Opportunities are now available for you to contribute to this important global conversation by submitting an abstract for consideration. You can nominate the preferred [theme](#) and symposium relevant to your work. Click on the button below for more information.

Submissions close on **Tuesday 12 March 2024**.

YOUNG SCIENTIST PROGRAM

Applications are now open for the Young Scientist Program (YSP2024), taking place in the Macedon Ranges, Australia from 20-22 September 2024.

YSP2024 will bring together outstanding PhD candidates and early career researchers (<10 years post-PhD) from the FAOBMB region and IUBMB member countries for a 2-day scientific and networking program, prior to Biomolecular Horizons 2024.
