

Dear Colleagues

As valued members of the FAOBMB Executive Committee & Country Representatives, we are writing to call on your assistance with promoting [Biomolecular Horizons](#) which will be held in Melbourne from 22-26 September 2024.

The Congress features an amazing line-up of [Plenary](#) and [Keynote](#) Speakers, including many eminent speakers from the FAOBMB region; and we want to see a strong representation of delegates from our region.

We have some important deadlines fast approaching and want to ensure your Society members are fully aware of the opportunity to join this global forum that the 17th FAOBMB Congress is a part of.

- Young Science Program Application closing on 29 February 2024
- IUBMB Travel Fellowships closing on 29 February 2024.
- Call for Abstracts Closing 12 March 2024
- Early bird registration closing 31 May 2024

We are calling on your support to distribute information to individual members within your country and indeed through your broader professional networks.

To assist we have included some social media tiles which include:

- one with FAOBMB logo encouraging your members to be involved
- one focused on the call for abstracts closing on 12 March
 - You may want to add a message such as *Don't miss this global forum. Abstract submissions close on 12 March 2024 and early bird registration savings are on offer. Visit www.bmh2024.com for more details*
- one focused on the Young Scientist program with applications closing on 29 February
- one focused on the IUBMB Travel fellowships with applications closing on 29 February

With any posts we ask that you include #bmh2024

We've also included an email signature that you may be able to use when emailing your members or professional networks and a general PowerPoint slide that you may be able to use at any presentations.

We will also send under separate cover an email bulletin that in turn you could simply forward this directly through to your membership. If there is another format that is better suited to your communications platforms please let us know.

If there are opportunities for an advertisement or any editorial in any upcoming newsletters, we would welcome this chance and can provide any specific content or branding formats you may need.

We thank you in advance for your support and look forward to welcoming you and many of your colleagues and members from the region to the Congress in September.

Kind regards

Professor Leann Tilley, Congress Convenor; Professor Paul Gleeson, BMH2024 FAOBMB Representative; Associate Professor Terry Piva, Ambassador for FAOBMB
